

SHUTTERING PROFILES AND MAGNETS DEVELOPED BY THE SPECIALIST

WE HAVE BEEN DEVELOPING AND MANUFACTURING
SHUTTERING PROFILE SYSTEMS, MACHINES AND PLANTS
FOR ALMOST 60 YEARS.

WE OFFER THE COMPLETE SOLUTION FROM ONE SOURCE. DO NOT HESITATE TO CONTACT US.

THE DECISIVE ADVANTAGE

Weckenmann is a full-service partner in the field of production equipment for precast concrete products: we develop the appropriate shuttering system for your plant and your products. Our experienced specialists will provide professional support all the way from planning to commissioning and maintenance.

A-SERIES

Shuttering profiles for the manufacturing of floor slabs and double-walls.

M-SERIES

Shuttering profiles for the manufacturing of solid elements, sandwich panels, slabs and facades in standard thicknesses.

M-BASIS / M-TOP-SERIES

Shuttering profiles for the manufacturing of solid elements, sandwich panels, slabs and facades in changing heights.

X-UNI-SERIES

Magnetic system for wooden shuttering for the manufacturing of solid elements, sandwich panels, slabs and facades in variable dimensions.

X-UNI-S-SERIES

Shuttering profiles for the manufacturing of door and window frames in variable dimensions.

X-FLEX

The universal hold-down system for flexible shuttering construction.

MAGNET TECHNOLOGY

The perfect choice for a fast and secure fixation of shuttering profiles and accessories.

X-QUICK

For infinitely variable length adaptation of shuttering profiles as a replacement for polystyrene profiles.

X-SMART

The X-Smart system allows the continuous extension of shuttering profiles.
